NPE 2006

McCormick Place, Chicago IL

June 19-23, 2006

IN THE LAST DECADE, SPAIN BECAME ONE OF THE TOP EIGHT COUNTRIES IN THE DEVELOPMENT OF THE PLASTICS INDUSTRY. ACCORDING TO THE LATEST FIGURES PROVIDED BY CIPAD (COUNCIL OF INTERNATIONAL PLASTICS ASSOCIATION DIRECTORS), IN 2002 SPAIN WAS EIGHTH ON THE WORLD'S LIST OF PLASTICS RAW MATERIALS PRODUCERS AND RANKED THE TENTH AMONG PLASTICS PRODUCTS CONVERTERS. FOR MANY YEARS, THE U.S. HAS BEEN THE PRIMARY DESTINATION FOR SPANISH PLASTIC FINISHED PRODUCTS OUTSIDE THE EU. SALES OF PLASTIC-PROCESSED PRODUCTS HAVE EXPERIENCED ANNUAL GROWTH RATES OF 30% IN REAL TERMS, DESPITE ECONOMIC UNCERTAINTIES. AS PROOF OF THIS VITALITY, IN 2002, EXPORTS HAVE INCREASED 10.8%—REACHING UP TO 4,529 MILLION EUROS. IN SPAIN THERE IS ALSO A SIGNIFICANT INDUSTRY FOR THE MANUFACTURING OF MACHINES AND MOLDS FOR THE TRANSFORMATION OF PLASTIC. SPAIN'S EXPORT MODEL HAS BECOME THE ENGINE OF THIS FAST GROWTH FOR THE LAST FEW YEARS, REACHING 126.5 MILLION EUROS IN 2002.

FEAMM – Spanish Federation of Managerial Associations of Mould and Die Manufacturers

7

FEAMM is a non-profit trade association representing all the Spanish mold and die makers. The molds and dies sector has more than 800 specialized companies in Spain. This companies invoiced near 100 million Euros in the year 2005, and exports reached 217 million Euros mainly in Europe and USA. Over 11,000 specialized workers are involved in molds and dies sector in Spain. This innovative sector is participating in several European projects to improve its quality and has its own Technology Centre (www.ascamm.com) that provides R&D, Advanced Technology Services, Innovation, Knowledge Management, Mould Testing and specialized Training.

The logo for FEAMM, consisting of the letters 'FEAMM' in a bold, blue, sans-serif font with a white outline, set against a white circular background. This circle is part of a larger graphic design on a red background, which includes a blue circle above it and a white line that curves around a circular inset image of industrial machinery.

IRUMOLD, S.L.

9

Molds are for small or medium sized plastic parts, multi-cavity, with high performance precision, mostly with hot runners, with short cycles requirements and suitable for large production runs. The sector embraced are packaging (caps, closures, sprays, pumps, aerosols, etc.) and medical and pharmaceutical parts. Also manufactures insert molds and bimaterial. The firm is a leading company in the European Market of High Precision Molds. 85% of manufacturing is bound for exportation. In year 2005, IRUMOLD's first market was the U.S. IRUMOLD achieved the Quality Management Certificate ISO 9001:2000, and the Environmental Management Certificate ISO 14001. These two certificates together with the occupational health and safety certificate OHSAS 18001:1999, make a unique management system certified by AENOR and IQNet. This demonstrates the innovative focus and vision of the future from IRUMOLD.

NUDEC, S.A.

13

NUDEC is a Spanish company involved in the production/extrusion of flat polyester plastic sheet in a large variety of sizes and thicknesses (Other polymer sheets available – kindly revert to our website: www.nudec.es)

After 48 years offering the best quality and service NUDEC is internationally recognised in transparent sheet production. NUDEC sheets are used in the fabrication of recognised international prestige, with applications that are becoming more numbered and varied (glazing, machine guard, displays, signs, vending machines, etc.). All this stems from years of dedication and constant awareness to reach the goals which mark our future.

NUDEC is currently looking forward to expand our business in USA so that it is interested in visiting NPE 2006.
